

Photographic Composition

- The Rule of Thirds
- Framing
- Balance
- Lines
- Merges
- Simplicity

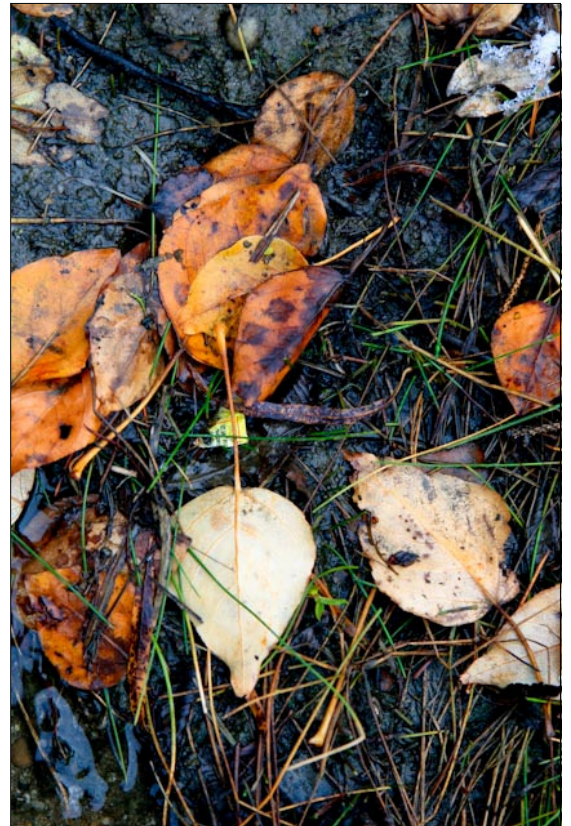

A number of images will be viewed, discuss and evaluated. Photo assignment images will be viewed during the second session.

One of the main reasons why some pictures are more outstanding than others is because of their strong composition.

We're going to consider how careful composition can improve your photographs.

This workshop is booked through McBain Camera. Please contact them at 780-420-0404.

Participants should bring the following:

- Camera & lens
- External flash (nice to have)
- Camera manual
- Six(6) of your favourite images
